

To the AIMC members,

Ravenna, April 26, 2023

The Municipality of Ravenna proposes the **VIII edition of the International Biennale of Contemporary Mosaic** curated by Daniele Torcellini and organized by the MAR - the Art Museum of the city of Ravenna.

The biennale will take place **from October 14, 2023 to January 14, 2024** and it will host exhibitions, conferences, presentations both of publications of the sector and of scientific papers related to the enhancement and promotion of contemporary mosaic art.

For this purpose, the Municipality of Ravenna and the AIMC-International Association of Contemporary Mosaicists are pleased to invite all AIMC members to propose a mosaic work to be submitted to a scientific committee set up specifically for the realization of the contest/exhibition ***Opere dal mondo, la luce del nero e dell'oro***. The selected works will be displayed in Ravenna for the entire duration of the biennale.

The artists are asked, as per the attached Call, to propose works which are inspired by and are in dialogue with the work of the great artist **Alberto Burri**, of course with great interpretative freedom, regarding the expression as well as the technique of the proposed work.

We therefore invite you to fill in the attached application form and send it back no later than **June 30, 2023**.

Warm regards,

Fabio Sbaraglia
Councillor of Culture

Nikos Tolis
AIMC President
